Before using this as your final selling list

Online retail prices are reference prices. They are not automatically the amount printed on your current stock.

Rows marked Confirm rate need the exact product / grade / pack or a readable back-label photo. No prices have been invented.

Your Rs 520 printed-price example is recorded on row 6; the manufacturer currently lists Rs 525 online.

Source photos are taken from your supplier PDF. Packaging and fragrance may vary; small originals limit sharpness.

PAK MULTILINKS

Sources & Verification Notes

Readtogetherwiththeproductpages | PricesinPakistanirupees

What this version verifies

52 supplier entries retained, including the unnumbered Germi Cure hand wash. Numeric prices are sourced online retail references; no package-printed MRP has been independently verified. This is a research edition, not a final approved price offer.

Packaging, units and availability

A 5-litre can is not a 1-litre unit. Supplier rates for rows 16-18 and 22-23 are per litre. Mask price is per 50-mask box. Tissue row 42 is per packet. Cup prices are per full carton, with quantities checked online. Sold-out listings are shown only as references.

Supplier quote date

The supplied quote is dated 1 September 2026 and expired on 30 September 2026. Reconfirm costs before setting margins.

Suppliercosts have notbeen published in this catalogue.

Printed MRP completion

For final printed prices, obtain clear current-stock labels showing product name, volume, price and batch. Rows without an exact match remain unresolved; similar products and crossed-out website prices were not substituted.
